RLI Rotary Level Indicator

APPLICATION

The RLI is designed to signal the presence or absence of bulk materials such as : chemical products, wood chips, grain, granules and powders. It is ideal for use as a point level indicator in tanks and silos as well as a blockage detector in conveyor chutes.

METHOD OF OPERATION

The detection of the material is achieved by a rotating paddle. If material empedes the rotation of the paddle, the motor topples on its axe and triggers an alarm. In this state, all the mobile parts are stationary. When the level of the material goes down again, the motor returns to its initial position and restarts.

- Tough corrosion resistant reinforced nylon enclosure
- Dust tight seals V-ring seal on stainless steel shaft plus sealed bearings, prevents penetration of dust and moisture
- Quality swiss motor for trouble-free life
- 316 acid proof stainless steel shafts and paddles

PADDLE SELECTION

Four alternative stainless steel paddles are available to detect a wide range of products from heavy to light densities.

OPTIONS

- TMP Top Mounting Plate
- SMP Side Mounting Plate
- RTS KIT adjustable level between 0,65 and 2,1 meters

PART NUMBERS / VOLTAGES

RLIB1V1 –	110V AC
RLIB1V1 –	220V AC
RLI1V3FCA -	12V AC/DC
RLI1V6FCA -	24-240V AC/DC

Please refer to instruction manual for correct installation . Information subject to change or correction. May 2007.

RLI

TECHNOLOGY . INNOVATION . QUALITY . VALUE

TECHNICAL SPECIFICATIONS			
Туре	RLI1V6FCA	RLIB1V1 / RLIB1V2/RLIB1V5	
Supply	24-240 V ac/dc	110 / 220/48Vac	
Consumption	1,8 VA		
Ambient Temperature	-35° to + 85°C		
Protection	IP 65		
Enclosure	Flame retardant, glass fibre, reinforced nylon		
Mounting	1¼ NPT		
Conduit entry	2 conduit entries M20		
Motor	1 RPM		
Cable length	min,1 mm2 - max,4 mm2		
Standard length	up to 3,5 m		
Output	1 contact inverseur 5 A 250 V		
Alarm relay	1 contact inverseur 5 A 250 V	No alarm contact	
Weight	0,95 Kg		

Connections

Please refer to instruction manual for correct installation . Information subject to change or correction. May 2007.
